Introduction

MD INFOTECH is a leading provider of specialized SCADA software solutions for the solar and wind energy sectors. With a track record of successful operations for over 3 years, we have emerged as a trusted name in the industry. Our commitment to excellence and cutting-edge technology has earned us the trust of renowned clients such as RENOM ENERGY SERVICE'S, Renfra Power Pvt Ltd, and Windkraft Energy Services.

Company overview

At MD INFOTECH, we specialize in developing advanced SCADA (Supervisory Control and Data Acquisition) software solutions tailored specifically for the solar and wind energy industries. Our comprehensive range of products and services cater to the unique needs of clients operating in the renewable energy sector.

Mission

Our mission is to empower renewable energy companies with state-of-the-art SCADA software that enables efficient monitoring, control, and management of their solar and wind power generation assets. We strive to contribute to the growth of clean energy by providing reliable and innovative software solutions.

Services

We offer a wide range of SCADA software solutions designed to meet the specific requirements of the solar and wind energy sectors. Our expertise includes developing software for renowned turbine manufacturers such as Suzlon, Gamesa, and Leitwind. Our software enables real-time data acquisition, monitoring, analysis, and control of renewable energy assets, facilitating optimal performance and improved operational efficiency.

Clientele

We are proud to have established successful partnerships with industry-leading clients. Some of our esteemed clients include:

- RENOM ENERGY SERVICE'S
- Renfra Power Pvt Ltd
- Windkraft Energy Services
- Speed Team.

Key Features

- Real-time data acquisition and monitoring of solar and wind power generation assets
- Advanced analytics and reporting capabilities for performance evaluation
- Remote control and management functionalities
- Seamless integration with existing systems and equipment
- Scalable solutions to accommodate project expansions
- User-friendly interfaces for ease of operation
- Robust security features to ensure data integrity and protection

Achievements

Over the years, MD INFOTECH has achieved significant milestones in the renewable energy industry. Our key accomplishments include:

Successfully serving clients for over 3 years, establishing a strong reputation for reliability and quality.

Consistently delivering software solutions that optimize energy generation, reduce downtime, and enhance overall operational efficiency.

Building long-term partnerships with renowned companies in the renewable energy sector.

Expanding our product offerings and adapting to emerging industry trends.
